

The Improvement Kata. A model for scientific thinking.

Understand the
Direction or
Challenge

What problem am
I trying to solve?

What am I trying to
learn about?

Grasp the
Current
Condition

What do I know?

What do I not know?

What is my threshold
of knowledge?

Establish the
Next Target
Condition

Where am I striving
to go next?

What obstacles
will I have to overcome
to get there?

What will I need to learn?

Experiment against
Obstacles

Toward the Target Condition

Run experiments
against obstacles
in order to learn.
