

**(Re)Imagining our work with data to
be more equitable, transformative,
*and full of soul***

Min Ma
2025 CQI Conference

Fractals are infinitely complex patterns that are **self-similar across different scales**. They are created by repeating a simple process over and over in an ongoing feedback loop.

adrienne maree brown (2017, p.51)

Part

1

Start with ourselves

**Data always
comes from
a perspective**

What identities do I bring to my work?

How do different forms of expertise show up?
(eg, lived, professional, academic)

Personal self

**Professional
self**

ASK:

What assets, interests, and gifts does your team bring to this work?

What lenses, biases, and perspectives do you/they bring?

What perspectives are missing?

PRINCIPLES:

Multiple Truths,
Humans > Data

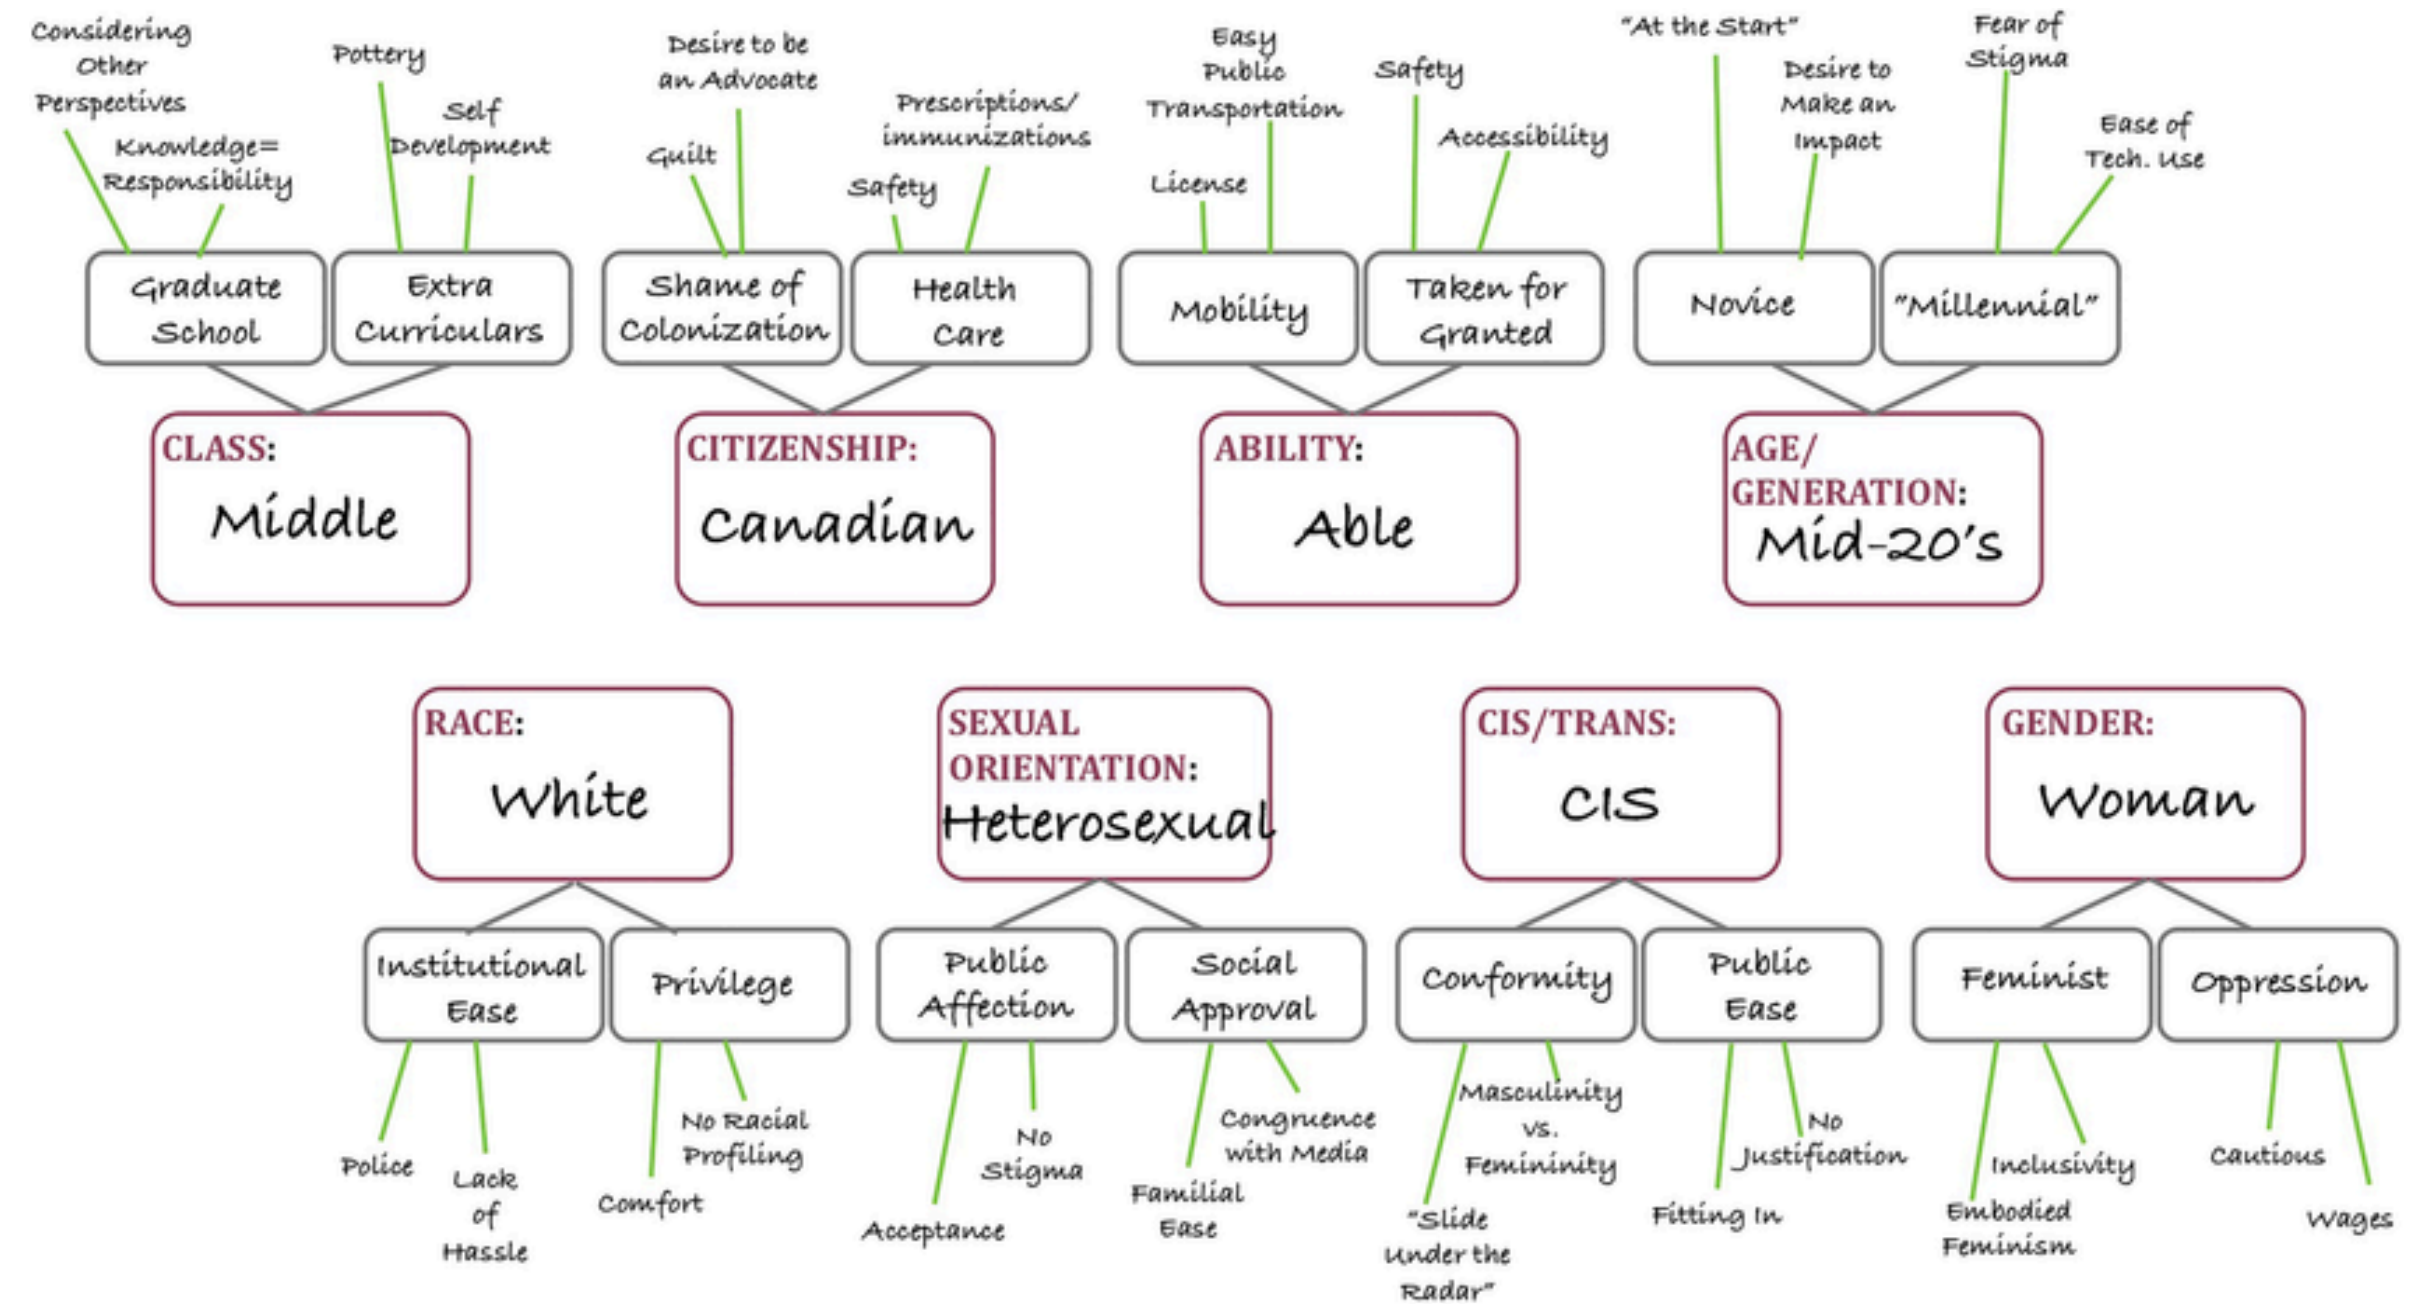

Supporting tools for surfacing blind spots

- **Social Identity Map** (Jacobson and Mustafa, 2019)
- **Journey Maps** (Hoff and Benitez Alvarez, 2023)

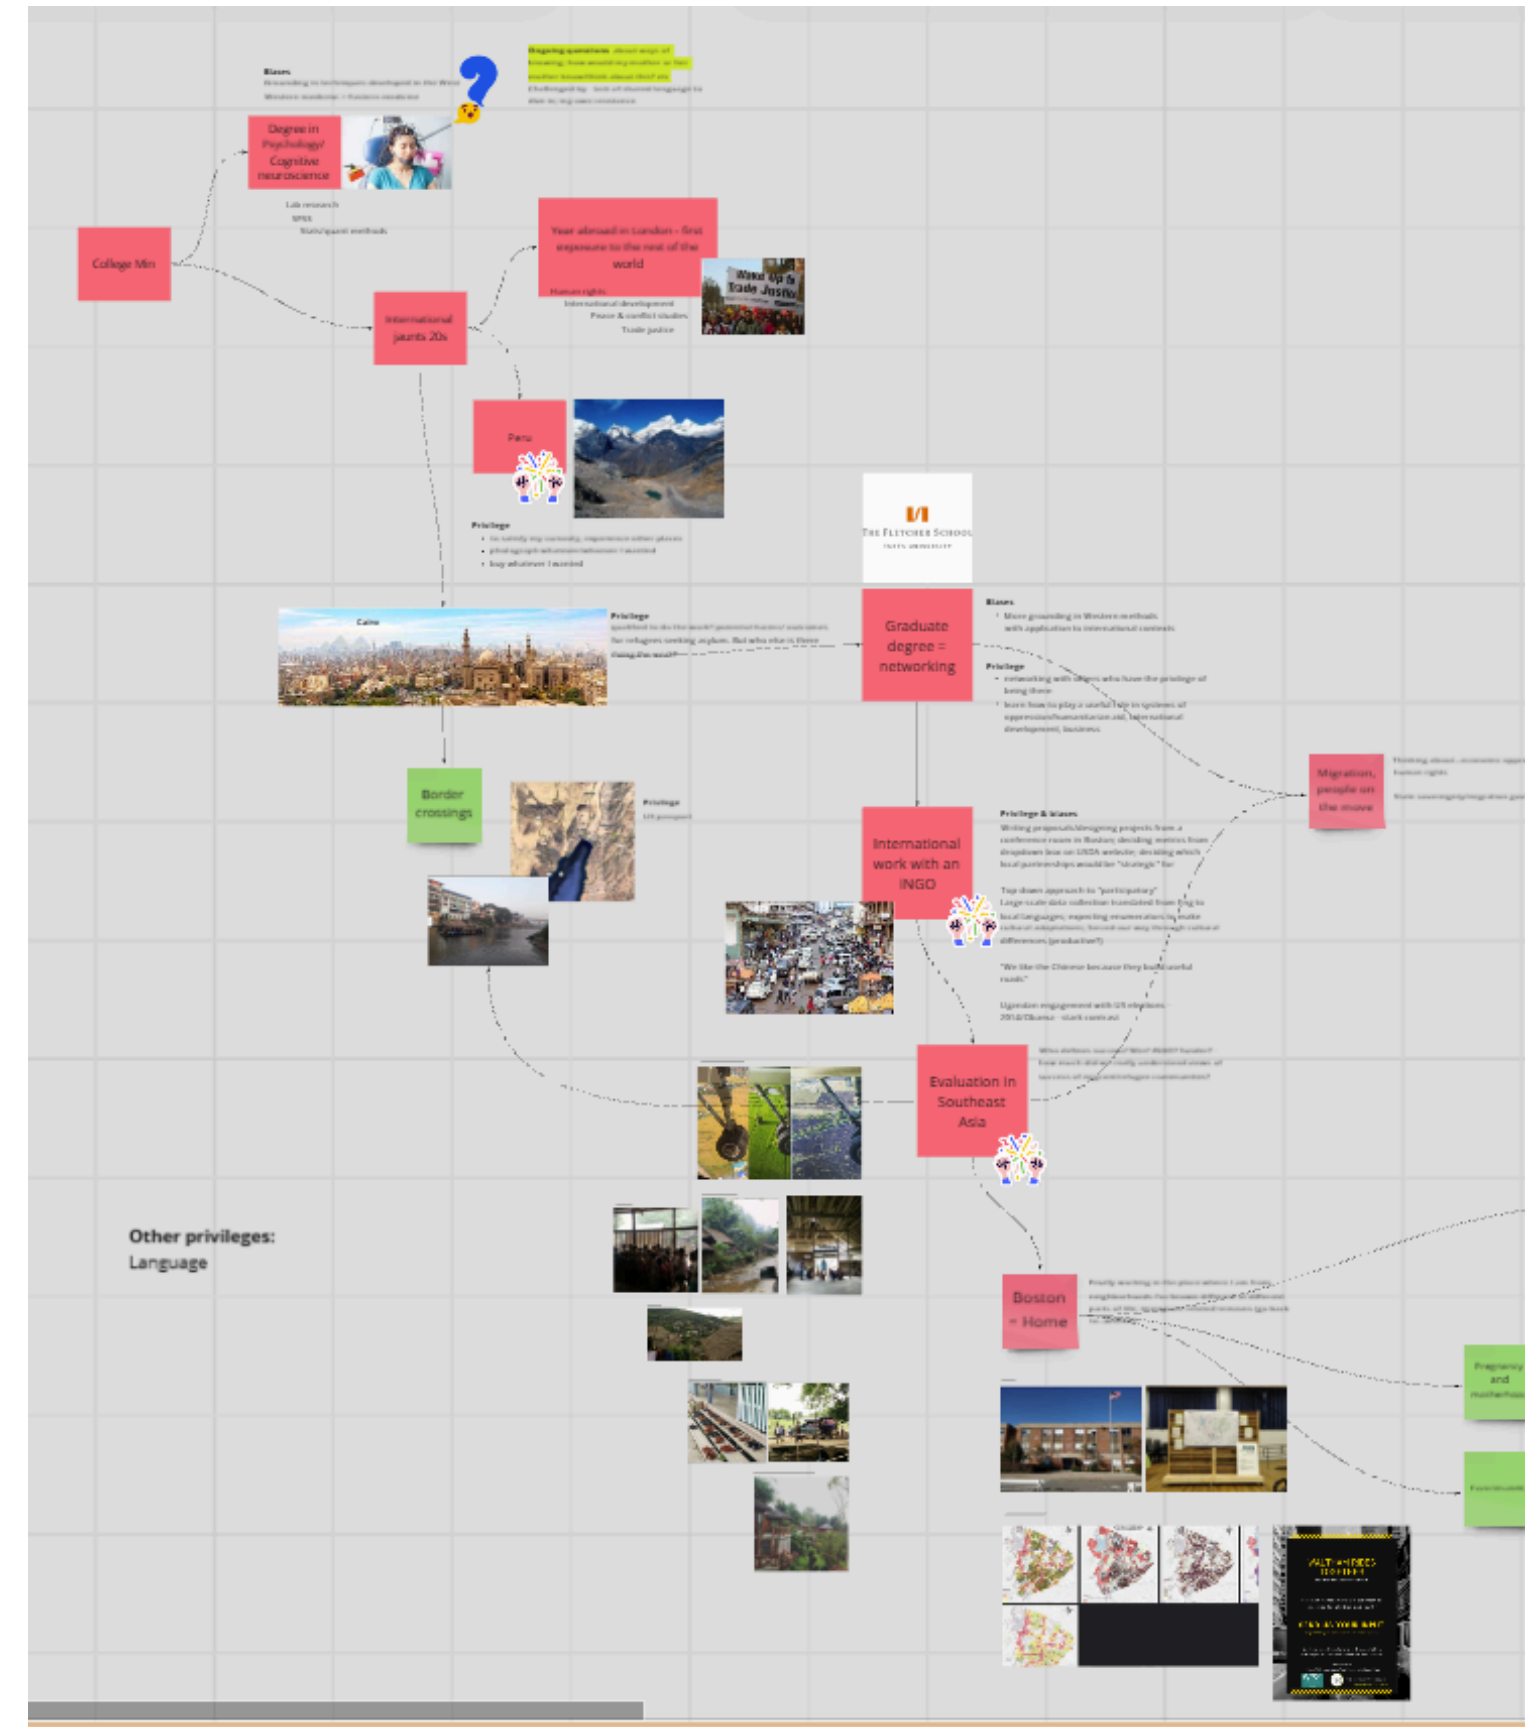

Social Identity Map

Jacobson and Mustafa (2019)

Journey Maps

Hoff and Benitez-Alvarez (2023)

ASK:

What assets, interests, and gifts does your team bring to this work?

What lenses, biases, and perspectives do you/they bring?

What perspectives are missing?

PRINCIPLES:

Multiple Truths,
Humans > Data

Supporting tools for surfacing blind spots

- **Social Identity Map** (Jacobson and Mustafa, 2019)
- **Journey Maps** (Hoff and Benitez Alvarez, 2023)
- ...???

How does this show up in your practice?

What are your tools?

THE WHAT

“...the tools of statistics and data science don’t carry inherent biases towards a worldview or group, but as soon as people get involved, they start making choices that – if unexamined – reinforce their own perspective in a way that affects the data outcomes and by extension the decisions or actions based on them. It’s how you use the hammer that matters.”

**How does our
understanding
of systems,
power, and
context
influence our
work with data?**

Some ideas to get us started...

- **Theory and questions**
- **Data sources:** Who and how we ask

Coalition of domestic violence agencies

Data collection

Coalition of domestic violence agencies

Data collection

ASK:

How can participants benefit from sharing with you?

How can you make this interview/focus group a joyful experience?

PRINCIPLE:

Humans > Data

WHAT IS THIS DATA CARE PACKAGE ALL ABOUT?

We created **"data care packages"** to **send care your way**: share our findings from last year, a gift card, treats, and postcards so you can offer your feedback about **[PROGRAM]**.

Your Experience

Draw or write about your experience receiving [Program] services.

5 - 4 - 3 - 2 - 1

GROUNDING TECHNIQUE

A calming technique that connects you with the present by exploring the five senses.

5

things
you can

you can
taste

DATA + SOUL

What shifted?

- ✓ Experience of participants
- ✓ Extraction vs generation
- ✓ Quality of data

Coalition of domestic violence agencies

Data collection

ASK:

How can participants benefit from sharing with you?

How can you make this interview/focus group a joyful experience?

PRINCIPLE:

Humans > Data

Data Equity Deck

Data+Soul Research
(2022)

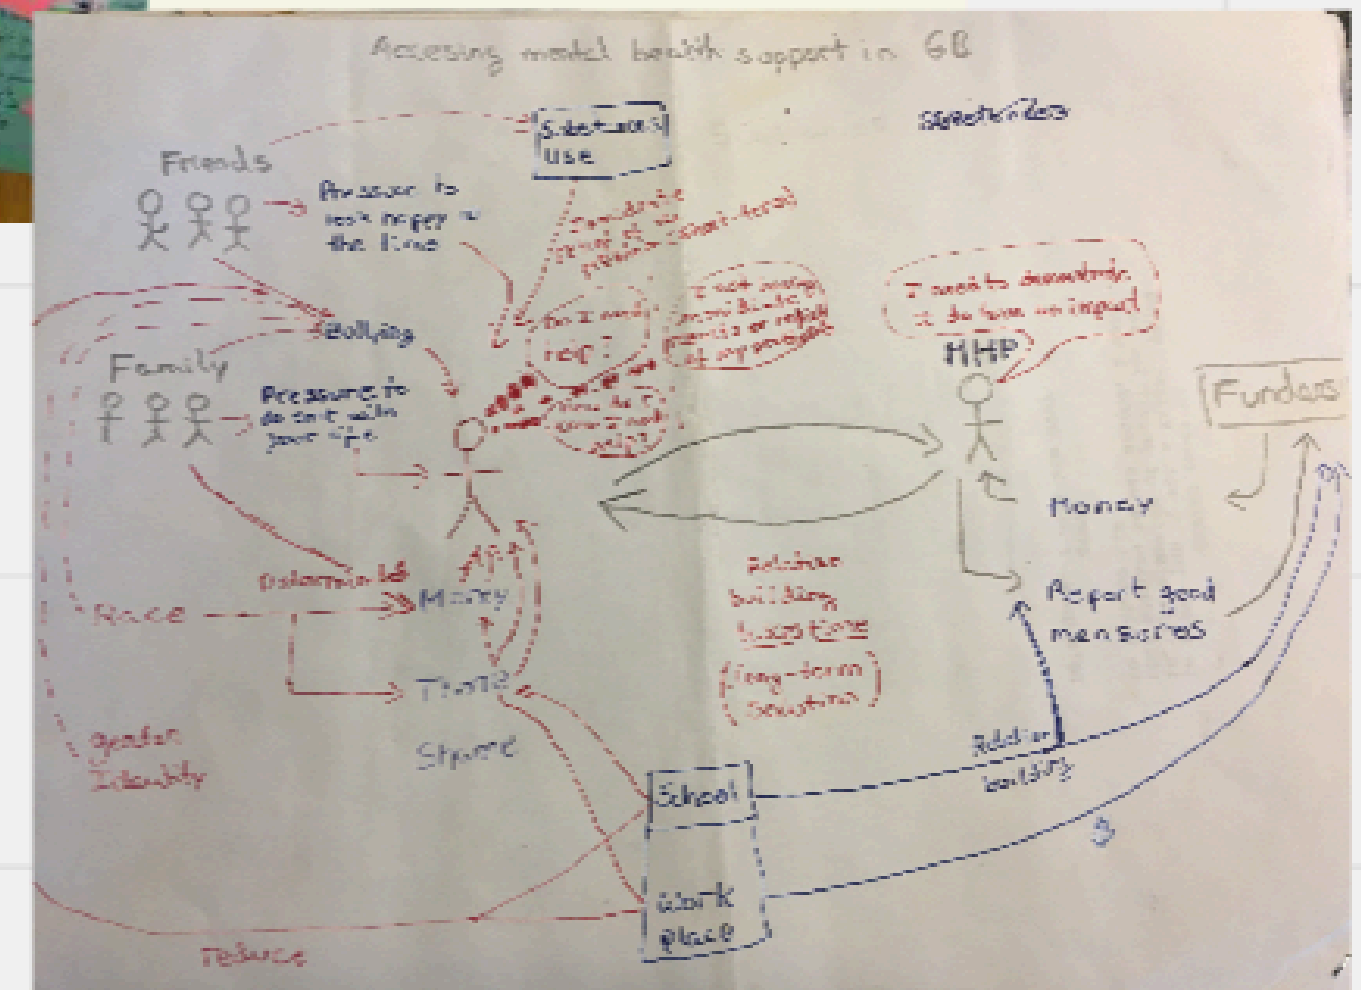

Rich pictures

Tool for diagramming a system

Map actors; connecting threads

Each represents a certain perspective;
can show different realities depending on
your view and the perspective you choose
to take

System Diagrams (Williams, 2001)

Story+Data Map

Centers people > programs

Reframes the story and corresponding data

- **Design a program**
- **Build an evaluation plan**
- **Align on shared purpose**

Data+Soul (2025)

Story+Data Map

Use this tool to map a program or initiative that helps people reach their goals. The data below mirrors the story above.

Who are the storytellers (the people completing this map)?

	People	Aspirations	Challenges	Assets	Approach	Outcome
Story	<p>Who are we here for? Whose stories are we influencing with our program?</p>	<p>What do they want to have or achieve?</p>	<p>What systems challenges stand in their way?</p>	<p>What resources, assets, and strengths do the people in our story have? The program?</p>	<p>What is the program doing to support these aspirations?</p>	<p>How will our people be closer to their aspirations by being involved with the program?</p>
Data	<p>What data do we know about our people - e.g., demographics?</p>	<p>How do we know these are their aspirations?</p>	<p>How do we know these are their challenges?</p>	<p>How do we know these are the resources, assets, and strengths of the people? The program?</p>	<p>What data will show what the program did and how people interacted with it?</p>	<p>What data will show whether people were closer to their aspirations?</p>

Story+Data Map

Story

Data

People

Who are we here for? Whose stories are we influencing with our program?

What data do we know about our people - e.g., demographics?

Aspirations

What do they want to have or achieve?

How do we know these are their aspirations?

Challenges

What systems challenges stand in their way?

How do we know these are their challenges?

Assets

What resources, assets, and strengths do the people in our story have? The program?

How do we know these are the resources, assets, and strengths of the people? The program?

Approach

What is the program doing to support these aspirations?

What data will show what the program did and how people interacted with it?

Outcome

How will our people be closer to their aspirations by being involved with the program?

What data will show whether people were closer to their aspirations?

Part

3

Our teams

THE HOW

**How do project
leaders navigate
team perspectives
and lived
experience within
this context?**

ASK:

How are you defining expertise
and who holds it?

PRINCIPLES:

Multiple Truths,
Shared Work + Knowledge

What made this possible?

- ✓ **Team time**
- ✓ **Internal “how”**

Coalition of domestic violence agencies

Data collection

ASK:

How can participants benefit from sharing with you?

How can you make this interview/focus group a joyful experience?

PRINCIPLE:

Humans > Data

Think of a time
when a conversation led you to interpret
data in an entirely different way.

What created room for this conversation to happen?
What difference did it make?
