

Statewide Reports for Outpatient Therapists

For more information on biannual Outpatient Therapy reports, please contact Jennifer Prior (jennifer.conat@northwestern.edu; 312-503-1578).

Change in Proportion of CANS Domain Actionable by Age Group

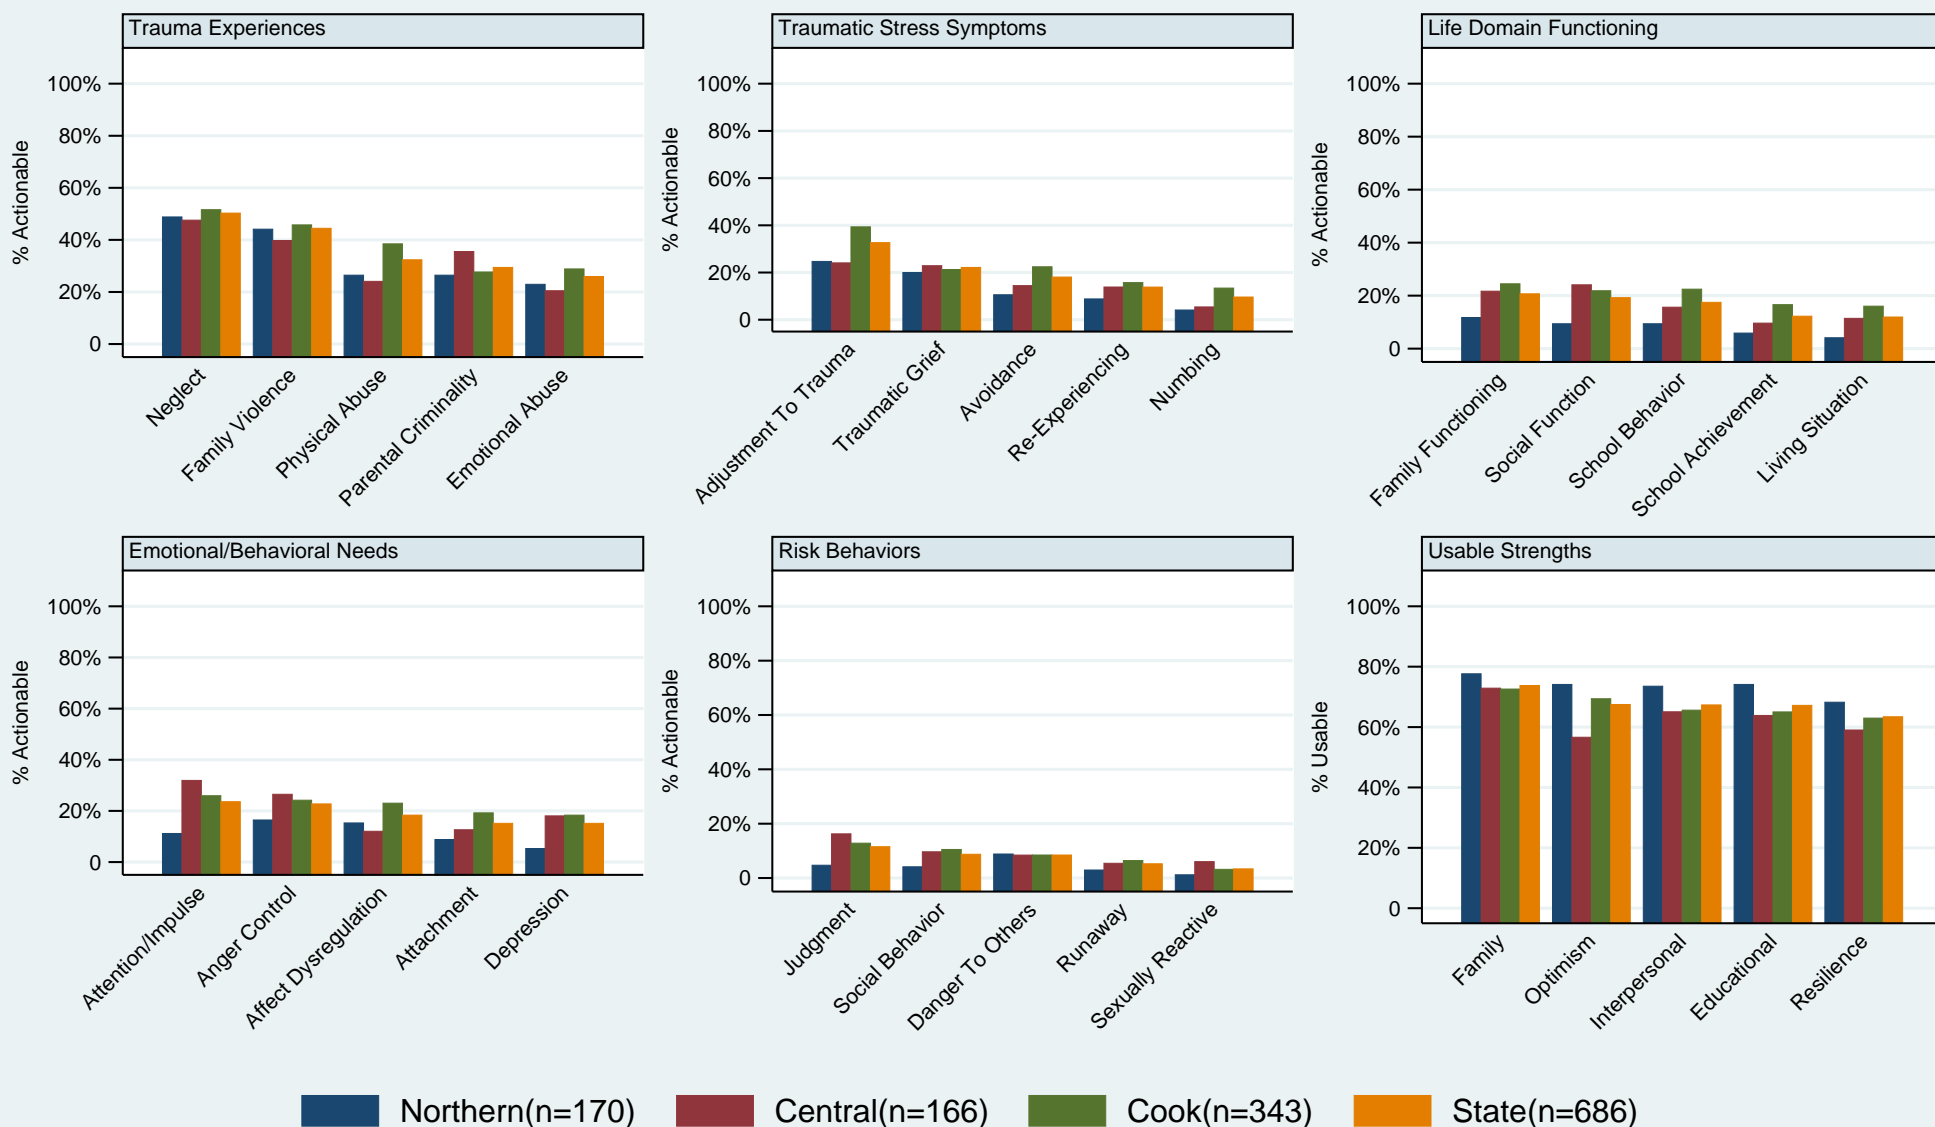

Initial and Most Recent Outpatient Therapy CANS

The Southern region is included in the statewide total but is not presented separately due to the limited number of CANS submitted. Report includes cases with 2 or more Outpatient Therapy CANS through June 30, 2014. Average number of days between CANS is 454. CANS received after June 30, 2014 and CANS that are pending due to missing or incomplete information will not be reflected.

Statewide Top 5 Actionable CANS Items for Selected Domains

Outpatient Therapy CANS Received from July 1, 2013 through June 30, 2014

Report includes all cases with at least one Outpatient Therapy CANS submitted between July 1, 2013 and June 30, 2014. The Southern region is included in the statewide total but is not presented separately due to the limited number of CANS submitted. Scores are based on most recent CANS. N/A and missing scores are regarded as non-actionable needs or non-usable strengths.

Generated on September 14, 2014

CANS Change Report by Assessor Agency
Outpatient Therapy
Usable Strength = Score of 0 or 1, Actionable Need = Score of 2 or 3

NOTES:

This report compares what percentage of items are actionable or usable from the initial CANS to the most recent CANS from the past year.
A positive number in the "% Change" column indicates improvement - in other words, fewer actionable needs or more usable strengths over time.
Formula: (initial % actionable - most recent % actionable)/(initial % actionable). We multiplied by -1 for Overall % Change in Strengths.
Because it is impossible to divide by zero, a "." (without quotation marks) in the "% Change" column indicates an undefined number.

CRITERIA:

This report reflects youth for whom we have received two or more total CANS, with most recent CANS from July 1, 2013 through June 30, 2014.
Youth for whom we have not received a CANS since July 1, 2013 have been excluded from this report.
Agencies with more clients offer more reliable information about overall % change.
